

Blood drive, eyemobile

In what could be called a "Health Day in Sherborn," the Sherborn Lions Club is sponsoring the Red Cross Blood Drive and the Lions Eyemobile on Thursday, Dec. 7, from 1-7 p.m. at the Sherborn Community Center, 3 Sanger St., Sherborn.

The Eyemobile is equipped with modern testing instruments and staffed with trained volunteers. The vision and hearing screening is provided free of charge.

The Red Cross Blood Drive is also at the Community Center. So, while you are there giving blood to the Red Cross, you can also have your eyes screened for visual acuity and eye pressure and have your hearing tested in the Lions Eyemobile, which will be parked next to the Community Center.

Volunteers from Sherborn's Lions Club and the Unitarian Universalist Church will be helping with the Blood Drive and the Eyemobile.
